February 18, 2004

Miamiville Civic Association  
P.O. Box 176  
Miamiville, OH 45147

Dear Ladies and Gentlemen,

Thank you for inviting us to your association meeting on Saturday, February 14, 2004. It is important that the residents of Miami Township know that we are interested and listening to both residents and experts in making the important health and welfare decisions we are faced with.

At our request, staff of the Clermont County Water and Sewer District will be posting information pertaining to the location of the proposed treatment facility on our County website. This should allow easy access of information to the public as we evaluate the potential sites as discussed in our December 18, 2003 meeting. Your continued involvement in the process of both protecting water quality and providing input in the site selection process is important to us. We will be providing your list of issues to the selected design consultant for consideration.

Thank you also for the time and effort many of you have put into understanding our consultant's information and the suggestions you have made to help us look even further for alternative sites. We look forward to working with you throughout the process.

Sincerely,

Mary C. Walker  
President

Robert L. Proud  
Vice-President
